PROFESSIONAL SUMMARY

Shopify Developer with 1 year of agency experience delivering Shopify theme customizations, Online Store 2.0 development, metafield implementations, storefront enhancements, and ongoing development support for ecommerce brands. Contributed to 7+ live Shopify stores across fashion, sports, automotive, FMCG, and electronics sectors. Experienced in Shopify Liquid, responsive frontend development, large catalog management, WordPress/Elementor builds, lightweight web application integrations, and third-party Shopify app implementations.

SELECTED ACHIEVEMENTS

- Delivered 7+ live Shopify stores across multiple industries.
- Managed and structured 2,500+ SKU variants and product catalog data across multiple Shopify stores.
- Improved catalog onboarding efficiency by approximately 40% through structured bulk import workflows.
- Customized Shopify Online Store 2.0 themes using Liquid, JSON templates, sections, and blocks.
- Implemented metafields, filters, app integrations, and storefront enhancements across multiple stores.
- Supported ongoing Shopify development tickets and agency project delivery.

CORE SKILLS

HTML5 • CSS3 • JavaScript (ES6+) • Responsive Design • Mobile Optimization

CMS

WordPress • Elementor

DEVELOPER WORKFLOW

Git • GitHub

TOOLS & INTEGRATIONS

Supabase • Vercel • Shopify Sidekick • Search & Discovery • Judge.me • Shopify Forms • WhatsApp Chat Integrations

PROFESSIONAL EXPERIENCE

Shopify Developer

Fugensys Technologies | Shopify & eCommerce Agency | April 2025 – Present

- Customized Shopify Online Store 2.0 themes — headers, footers, sections, and navigation — using Liquid and JSON Templates to align storefronts with brand guidelines.
- Delivered storefront enhancements and Shopify development tickets across 7+ live stores in fashion, sports, automotive, FMCG, and electronics verticals.
- Implemented metafields and metaobjects for technical product specifications, enabling richer product data and improved browsing structure.
- Applied CSS overrides and Liquid-based customizations to improve mobile responsiveness and layout consistency across 5+ live stores.
- Managed large-scale bulk product imports (500–1,000+ SKUs) with complex variant mapping and structured catalog workflows, reducing upload effort by ~40%.
- Integrated third-party Shopify apps (Judge.me, Search & Discovery, WhatsApp Chat Integrations, Shopify Forms) to enhance storefront functionality.
- Collaborated with project managers and designers in a distributed agency environment, delivering store updates on tight timelines.

KEY SHOPIFY PROJECTS

Shopify Technical Sandbox — Theme 2.0 Development Store (Active)

- Building a Theme 2.0 store from scratch using Liquid tags, objects, filters, and JSON Templates for hands-on theme architecture practice.
- Developed custom sections, blocks, and snippets with optimized section schemas — eliminating reliance on paid apps for dynamic storefront editing.

- Implemented variant rendering, {% render %} tags, and dynamic navigation via linklists[] for full eCommerce functionality.
- Integrated Judge.me reviews, WhatsApp Chat Integrations, Search & Discovery filters, and Shopify Forms.

QuickStrings – Sports Equipment Store (1,000+ Products)

- Structured 1,000+ SKUs with complex variant mapping, bulk product imports, and organized catalog workflows.
- Customized Mega Menu (Tennis / Badminton / Squash), product filters, and mobile UI for improved product discoverability.
- Created and managed metafields for technical specifications; configured Search & Discovery app for advanced filtering.

Olo – Apparel Store (200+ Products)

- Architected 200+ apparel products with size/color variants; integrated AI-generated variant images for visual consistency.
- Customized header, footer, and homepage sections via CSS and Liquid; improved mobile responsiveness across the storefront.

Feynlab – Automotive Store (120+ Products)

- Configured specialized metafields for industrial and technical specifications across 120+ automotive products.
- Enhanced category layout, navigation structure, and mobile responsiveness across DIY and architectural product lines.

ADDITIONAL LIVE SHOPIFY PROJECTS

Global Access – Mobile Electronics Store (500+ Products)

Structured 500+ mobile products with storage/colour-based variant configuration; organised collections by brand and optimised mobile product grid layout.

Desikraft – Saree Store

Organised saree catalog (Banarasi, Handloom) with Mega Menu and CSS-based UI improvements for improved conversion.

Swastik – FMCG Store

Delivered end-to-end store setup from scratch — 120+ products, policy pages, and optimized visual assets and storefront content for improved presentation and performance.

Yuvan Foods – Food Store

Delivered full store setup including product catalog, collections, policy pages, and mobile-optimised storefront.

REMOTE COLLABORATION

- Available for collaboration across CET, GMT, Gulf, and AEST time zones.
- Comfortable working with project managers, designers, and distributed development teams.
- Strong written communication and documentation practices.
- Experienced supporting ongoing agency development workflows and Shopify ticket delivery.
